[Report](#)

Dear Southern Derbyshire County Council,

My wife and I strongly object to the 372 new homes planned for Weston and Aston On Trent. Such a large development would put excessive strain on the fragile village infrastructure and environment. There are already insufficient:

1. School places
2. Doctors appointments and facilities
3. Bus services
4. Sewerage and drainage
5. Facilities for young people
6. Footpaths and cycle routes
7. Street cleaning and drainage cleaning is none existent
8. Grit and salt boxes

9. The roads in the centre of Aston are too congested already, with single file traffic through the centre and T junction between Weston and Derby Road, that is a definite health and safety issue, particularly when the bin trucks are accessing that area, nobody can get through and unseen children step out between the cars parked on both sides of the roads.

South Derbyshire County Council are only 57 homes short of achieving their new housing quota and provide insufficient and unsafe conditions for the existing villages, so are clearly unable to provide for an excessive 62% increase in homes Weston and Aston, purely for the financial benefit of housing developers at the risk and expense of the residents.

Yours Sincerely
