

FOR SNN DEPT USE ONLY - REG NO. _____

Application for New Property Address

This form is to be used for applications to create new street names and/or addresses - 1 house or more.

Application Notes

Applications are only processed on sites that have approved planning permissions. Whilst the consultation will commence when the application is validated, addresses will not be issued until the development has commenced.

When applying for new street names it is essential your application is submitted at the very early stages as allocating a new street name can take at least 3 months.

All proposed street names are subject to consultation with interested parties under the Public Health Act 1925 (sections 17-19). In the first instance, the Council may object to a proposed name and an alternative name may be required. We will contact you if this is the case. Please refer to the street naming and numbering guidance on our website at www.south-derbys.gov.uk.

Please note that should the official street naming and numbering be issued and there is then a subsequent change to the planning approvals and scheme to be constructed, that affects the numbering schedule, further fees will be applicable to any request to amend a previously confirmed naming and numbering schedule.

Applicant Details - Person(s) applying for the new street name and/or address
