Application for an Address Amendment

This form is to be used to amend a name to an existing named property or to add a number to a named-only property. It should also be used for those applying to increase or decrease the number of units in a single property.

Application Notes

All suggested names are checked by the Street Naming and Numbering (SNN) team with the Emergency Services and Royal Mail to ensure that there are no names the same or too similar within the same postcode sector. This is done to minimise any postal confusion or in case of emergency, so the Emergency Services are sent to the correct address.

Existing street numbers are only changed in exceptional circumstances. Requests to change numbers due to any superstitious connotations will not be granted.

It is a legal requirement under the Public Health Act 1925 (sections 17-19) that the street number/house name is displayed in a clear and prominent position so that it can easily be read from the street.

Please note, the allocation of a postal address does not serve as confirmation that any building or structure has been authorised under Planning, Building Control or any other Legislation. Owners and/or occupiers may be at risk of enforcement action if any necessary approvals have not been obtained.
