Private Sector Housing Renewal Policy 2016	Redundant

## 1. Introduction

- 1.1 South Derbyshire District Council (the Council) recognises the importance that good quality, accessible, safe, and warm housing has in contributing to people's quality of life.
- 1.2 The primary responsibility for maintaining and repairing private sector homes rests with the owner, however the Council is committed to improving the quality of housing within the District and has statutory responsibilities to assist certain people where they cannot reasonably do this for themselves.
- 1.3 Disabled Facilities Grants (DFGs) and discretionary housing grants can make a significant contribution in meeting the needs of older, vulnerable and disabled people by providing assistance to facilitate adaptations or essential repairs in the home to promote health and wellbeing and maximise the opportunities for continued independence.
- 1.4 This policy updates the Council's Private Sector Renewal Policy, which was last updated in 2016. It is steered by objectives contained within the Council's Corporate Plan, the emerging Housing and Health Strategy and Derbyshire County Council's (the County Council) Better Care Fund (BCF) Narrative Plan.

## 2. Policy Statement

- 2.1 This policy sets out how the Council will exercise its statutory obligations for the provision of mandatory DFGs under the provisions of the Housing Grants, Construction and Regeneration Act 1996 and use the discretion afforded under Article 3 of the Regulatory Reform Order (Housing Assistance) (England & Wales) Order 2002 (the RRO) to provide flexible assistance to help improve the living conditions of people living within the District.
- 2.2 In accordance with the RRO, this policy has been adopted by the Council and details the:
  - Scope of adaptations available under the DFG.
  - Other types of assistance the Council may make available based on an assessment of local need.
  - Eligibility conditions for the assistance.
  - Amount of assistance available.
  - Conditions that will apply to the provision of the assistance.
  - Circumstances when repayment is required.

## 3. Policy Aims

- 3.1 The focus of this policy is one of early intervention and proactive prevention; to avoid crisis, to enable people to live healthily and well at home and remain living as independently as possible.
- 3.2 The assistance contained within the policy aims to meet the identified priorities set out in the Council's Corporate Plan, the emerging Housing and Health Strategy, and County Council's BCF Plan by:
  - Increasing the number of people who are able to live independently and safely at home.

- Contributing to the principal aims of the BCF to reduce delayed transfers of care, minimise avoidable hospital admissions and facilitate early discharge from hospital where possible (reducing bed-based care).
- Improving the health, wellbeing, and quality of life of people living within the District.
- Removing or reducing housing related defects that are detrimental to a person's health.
- Reducing the number of households living in fuel poverty by improving the energy efficiency of the District's private sector housing stock.
- Increasing the number of empty properties brought back into use, particularly where this accommodation can be used to relieve homelessness.
- Supporting the coordination and integration of services to deliver person centred outcomes.

## 4. Legal and Policy Framework

### 4.1 Home Adaptations

4.1.1 The provision of a DFG is regulated by the Housing Grants, Construction and Regeneration Act 1996. The Act places a statutory duty on the Council to provide assistance to qualifying disabled people to undertake a range of adaptations to their homes that are considered "necessary and appropriate" to meet their needs and are "reasonable and practical" having a regard to the age and condition of the property, any work must also be determined as "eligible" as defined by the Act and subsequent regulations. The grant is subject to a "test of resources" in accordance with the legislation, except in the case of children aged under 19, and gives the Council powers to require the grant funding to be repaid upon disposal of the property in certain circumstances.

4.1.2 The Regulatory Reform (Housing Assistance) (England and Wales) Order 2002 gives the Council greater freedoms to provide financial assistance for adaptations, essential home repairs or improvements to improve housing conditions to benefit an individual's health, wellbeing, or quality of life. Article 3 of the Act introduces a wide range of discretionary powers to allow the Council to develop different forms of assistance to meet local needs, based on the local housing conditions and the resources available to the local authority.

4.1.3 In 2015/16, the Government made changes to the funding mechanism for DFGs by including the allocation for DFGs as part of the Better Care Fund (BCF). The fundamental principle of the BCF pooled budget is to enable health, social care, and housing services to work more closely together to assist people to manage their health and wellbeing and to live independently in their communities for as long as possible. The statutory duty for the Council to deliver the DFG remains, and within Derbyshire the full DFG allocation is passported through to the Council each year to enable the delivery of DFGs and other local housing related priorities.

### 4.2 Housing Assistance

4.2.1 The Governments view is that the primary responsibility for maintaining privately owned properties rests with the homeowner, however in certain circumstances it may become necessary for the Council to assist in carrying out essential repairs or improvements in the form of advice, financial assistance or enforcement action.

4.2.2 The Home Energy Conservation Act (HECA) 1995 outlines that Local Authorities are uniquely placed to assess the needs of their areas and sets out the specific role the Council has to play in improving the

energy efficiency of residential accommodation. Since 2013 the Act requires the Council to produce biennial reports setting out the measures it is taking to improve energy efficiency within the residential accommodation of the District.

- 4.2.3 The Housing Act 2004 places a statutory duty on the Council to enforce housing standards in their locality and introduced the Housing, Health and Safety Rating System (HHSRS) risk assessment for residential properties. The HHSRS assess 29 potential hazards within a home and classifies these as either Category 1 or 2 hazards, with Category 1 hazards placing the occupants at risk of immediate harm. This requires the Council to take appropriate action and enforce housing standards when these are not met. The Act also set out the requirement for the Council to keep the housing conditions under review and develop strategies and approaches to address areas of concern.
- 4.2.4 The Energy Act 2011 places an obligation on energy companies to help the poorest and most vulnerable households with saving energy. The Energy Company Obligation (ECO) is a government energy efficiency scheme to help reduce carbon emissions and tackle fuel poverty. Under the scheme, the larger energy suppliers have to set targets to:
- Promote measures to reduce carbon emissions, such as roof and wall insulation and connections to heating systems; and
  - Promote measures which improve the ability of low income and vulnerable households to reduce the amount of money required to heat their homes, such as the replacement or repair of a boiler.
- 4.2.5 The Housing and Planning Act 2016 includes a package of measures to tackle rogue landlords within the private rented sector. Since April 2018, landlords of domestic properties may not grant a new tenancy or renew an existing tenancy for a property rated with an Energy Performance Certificate (EPC) of F or G unless an exemption applies. The landlord must improve the rating to minimum of E or register an exemption before letting. The Council have committed to monitoring this and will take enforcement action where necessary to ensure the Districts private rented stock meets the minimum standards.
- 4.2.6 From April 2020, the minimum level of energy efficiency will apply to all domestic private rented properties covered by the Regulations, even if there has been no change in tenancy. If an exemption applies, landlords must register this on the Private Rented Sector Exemptions Register. Full details of exemptions are set out in the updated Domestic Landlord Guidance.

## 5. Local Strategic Framework

- 5.2 The Council's Corporate Plan outlines the Council's vision of the District being a great place to live, visit and invest, and outlines the values it holds to ensure the services it delivers reflect the local needs of residents. The Strategy includes a number of priorities which will support the aims of this Policy:
- Enabling independent and affordable living.
  - Supporting and safeguarding our most vulnerable residents by keeping them healthy and happy in their homes.
  - Promoting health and wellbeing.
  - Improving the condition of residential housing within the District.
  - Working towards achieving carbon neutrality by 2030.

5.3 The Council’s emerging Housing and Health Strategy 2019 - 2021 will identify housing and health related issues within the District. The strategy will prioritise these issues and propose ways in which the Council, within their role as enabler, will tackle them. The emerging priorities currently identified that relate to the delivery of this policy are:

- Improving health outcomes through housing interventions.
- Meeting the needs of our ageing population.
- Tackling disrepair in the private sector.
- Joining up services to prevent crisis.

5.4 The County Council’s BCF Narrative Plan outlines the way in which the Derbyshire BCF will operate to ensure that the health and social care system can deliver services to meet the needs of the local population. The priorities of this plan that support the delivery aims of this policy are:

- Prevention and early intervention to prevent crisis.
- Reducing delayed transfers of care (bed-blocking) or facilitate early discharge from hospital.
- Minimising avoidable admissions to hospital or residential care.
- Enabling people to remain living safely and independently at home.
- Maximising the health and wellbeing of the population.
- Ensuring seamless service provision is delivered across organisations by partnership working.

## 6. Local Context

6.1. South Derbyshire is a largely rural District at the heart of the National Forest. It is one of the fastest growing areas in England with a current population of over 105,000. This is set to grow by nearly 15% between 2019 and 2028 to increase this total to over 120,000 people.

6.2 The majority of people within the District live in the private sector (90%); with 76% owning their own home, either outright or with a mortgage and 13% living within the private rented sector. Only 10% of households live in socially rented housing.

The tenure figures should be used as an estimate of the tenure split rather than absolute figures.

6.3 The District will see an increase in the population of people aged 65 and over, in particular there will be significant growth in the 80+ age group which will place increasing pressures on health, social care and acute services.

The table below shows the percentage changes in age groups between 2019 and 2028.

6.4 The number of people living within the District with long term health conditions or a disability is set to increase by 32% between 2019 and 2028, in particular the number of people living with Dementia is set to rise by 36% and those living with a physical disability is set to rise by 32% over the same timeframe. The chart below shows the growth in some long-term health problems/disabilities:

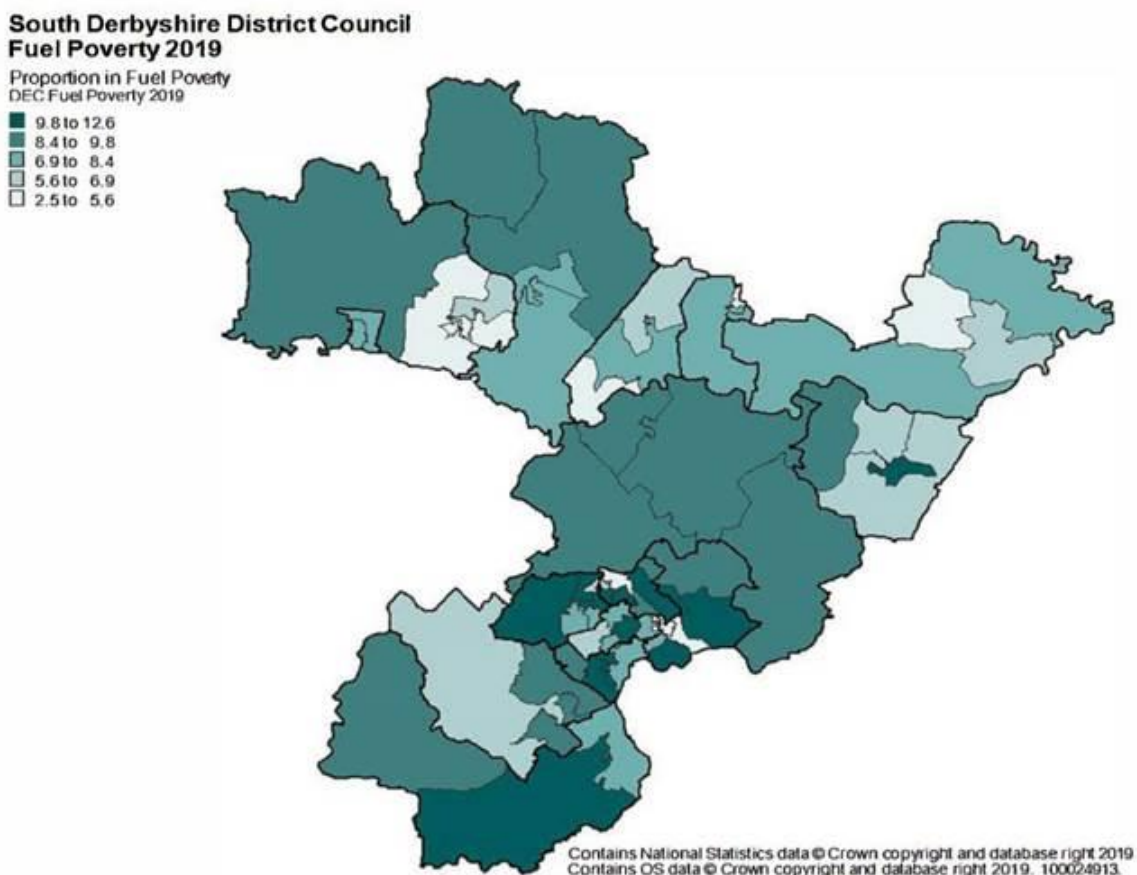

6.5 It is also anticipated that the number of frail older people will increase; frailty increases the risk of adverse health outcomes including falls, reduced mobility and disability, reduced independence, and hospitalisation. Older people are more vulnerable to accidents in the home, with those aged 65+ having the highest risk of falling. South Derbyshire has a greater rate of hospital admissions for falls in the home than in Derbyshire or England:

- 6.6 A household is considered to be in fuel poverty if they need to spend more than 10% of their income to maintain a satisfactory heating regime. South Derbyshire has a lower proportion of households living in fuel poverty than the national average; with 7.9% of households considered to be living in fuel poverty compared to the national average of 10.9%.
- 6.7 The heat map below shows the areas of the District considered to be in the highest levels of fuel poverty. These are areas the Council will proactively target with its preventative work to ensure the financial resources reach those most in need.

- 6.8 The rising cost of living including food, fuel and housing costs mean that some communities experience higher than average levels of deprivation and poverty. The Index of Multiple Deprivation (IMD) is the most commonly used measure of deprivation, with the lower numbers showing the areas of highest levels of deprivation.
- 6.9 The map overleaf shows that there are no areas within South Derbyshire that fall within the most 10% deprived areas across England, however there are stark contrasts between areas of deprivation, mainly around the urban core and towards the south and north-west of the District, and areas of greater affluence throughout the District.

## 7. Funding

- 7.1 The Council has seen an increase in DFG funding since 2014/15 as a result of the allocation being paid via the County Council’s BCF funding. The take up of mandatory DFGs within the District has not kept pace with the amount of funding received and therefore the Council has taken the opportunity to revise this policy to offer discretionary assistance and pilot new schemes to meet identified local need.
- 7.2 Mandatory DFGs will always need to have priority on the use of DFG monies, all other assistance which may be provided under this policy is at the sole discretion of the Council and will be subject to the availability of financial resources. At times of high demand, waiting lists for discretionary schemes may be instigated or schemes may be amended, suspended, or removed entirely to ensure the Council can meet its statutory responsibilities.
- 7.3 In addition to the DFG funding, the Council will exploit all possible opportunities for internal and external funding and work with other providers to improve housing conditions and the health and wellbeing of our residents.
- 7.4 Where assistance has been given on the condition of a land charge being applied to the property, all monies received from the disposal of the property will be returned into the DFG budget and be ringfenced for future mandatory and discretionary schemes delivered under this policy.

## 8. Adaptations

### 8.1 Disabled Facilities Grant

This grant will provide disabled people adaptations to their homes to promote independent living.

Funding for preferred schemes will only be awarded up to the maximum amount of the assessed eligible work. For example, if the Council recommends a stairlift to facilitate access to a bedroom, however the applicant would prefer a ground floor bedroom, the Council will only provide a grant for the cost of the stairlift (the original eligible works) and it will be for the applicant to fund the additional costs.</p>

	Remedial works identified that support the provision of eligible work that require action will be considered as part of the grant costs. e.g. upgrade or replacement electrics to facilitate the safe installation of a stairlift.
Financial Assessment	Funding will only be provided towards works deemed eligible. Eligible work under £6,000 or for a child (under 16, or under 19 if in receipt of child benefit) will not be subject to a test of resources. Works for £6,000 or over will be subject to a formal test of resources or a means test in accordance with the Act to determine an applicant's contribution.

Certification will be required to prove ownership or landlord's consent, along with a signed disclaimer stating the applicant's intention to remain in the property for the next five years.

In certain circumstances stage payments may be made towards the cost of large works. If the applicant has a contribution to pay, they must ensure they have the money to cover their share of the costs before work commences. Unforeseen and additional costs will only be paid for where they are necessary to complete the adaptation and must be agreed by the Council before they are undertaken. Any increase in grant amount may have an impact on the charge placed against the property.
Conditions	The disabled person must intend to occupy the property as their only or main residence for a period of five years after the works are complete (or such shorter period as the person's health or other relevant circumstances permit). Work must not commence until formal approval of the grant has been issued to the applicant and works must be completed within 12 months from the date of this formal approval. The Council is not responsible for the ongoing maintenance or repairs of the work, and it is the applicant's responsibility to ensure they adhere to the recommended servicing of any equipment e.g. stairlifts, through floor lifts, closomats etc. Where the applicant is an owner occupier and the grant amount is above £5,000, the Council will recover the costs of the grant up to £10,000 if the property is disposed of within 10 years from the date of the completion of works. This will be placed as a legal charge against property; however, the

8.4.1 To support the effective and efficient delivery of Mandatory DFGs, the Council will invest in the provision of a dedicated Occupational Therapist and Technical Officer. This will enable qualifying disabled people to receive eligible works to adapt their homes more quickly and support the policy aims of reducing hazards within the home, enabling people to live independently and safely, and improving the health, wellbeing and quality of life in addition to preventing avoidable bed-based care.
